THINK OUTSIDE TRADITIONAL MEETING SPACE

Book more than just a mountain meeting. Heber Valley is one of the most accommodating, scenic, and easily accessible alpine towns in the world. The aspiring site of the biathlon and cross-country ski events during the 2034 Winter Olympic Games, Heber Valley is also home to three expansive state parks with hundreds of miles of pristine trails, is surrounded by jaw-dropping mountain vistas, and has become a distinguished destination for **meetings, incentive, retreats, team-building, and special events.**

With recent growth and major investments in infrastructure, lodging, and event space, Heber Valley has quickly become the ideal mountain town for groups large or small. Visiting this picturesque valley is the perfect way to enjoy one of Mother Nature's favorite destinations and experience one-of-a-kind adventures along with distinguished meetings and events.

You are invited to discover and explore why Heber Valley is the place to GO. (or "...is the place to MEET.")
