

Recycling Zones

What is the Zone?

In 1996, the Utah Legislature created the Utah Recycling Market Development Zone Program which focuses on recycling as an economic development tool. This will assist businesses that collect, process, distribute or use recycled materials in their manufacturing operations, or compost. Eligible recycling businesses that are located in designated Recycling Market Development Zones qualify for:

- 5% state tax credit on machinery and equipment
- 20% state tax credit (up to \$2,000) on eligible operating expenses
- Technical assistance from state recycling economic development professionals
